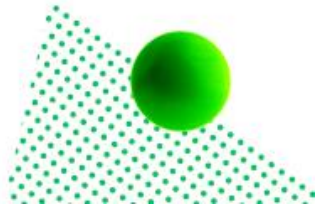
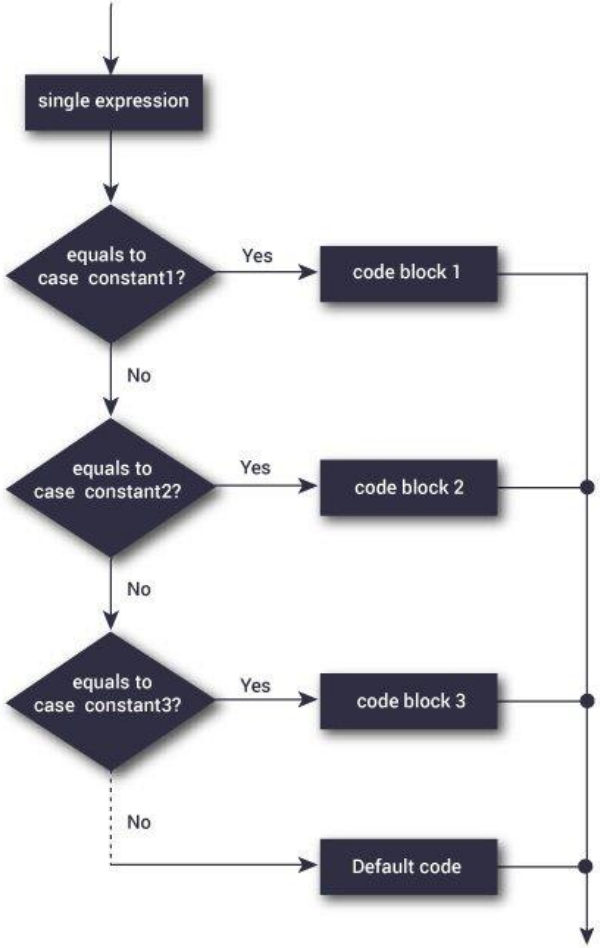
switch operatori



PDP
IT-ACADEMY

Agar ifoda (*expression*) ning qiymati `case` lardagi biror qiymatga mos keladigan bo'lsa, tegishli kod bloki bajariladi



PDP
IT-ACADEMY

Syntax

```
switch(expression) {
  case x:
    // code block
    break;
  case y:
    // code block
    break;
  default:
    // code block
}
```

PDP
IT-ACADEMY

Example

```
int month = 3;

switch(month)
{
case 1:
    cout << "January";
    break;
case 2:
    cout << "February";
    break;
case 3:
    cout << "March";
    break;
default:
    // code block
}
```
